PROFESSIONAL SUMMARY

Detail-oriented and versatile professional with a background spanning data analytics, AI tools, research, and operations. Holds a BSc in Natural Resources Management (KNUST) and formal certifications in Data Science and Analytics and Generative AI and Prompt Engineering (Thrive Africa EduTech, April 2026). Skilled in Python, SQL, Power BI, and Excel, with hands-on experience building AI-powered tools from scratch. Brings strong research foundations, clear written communication, and the ability to work independently in remote settings. Available immediately for remote and in-person roles.

SKILLS

Data Analytics: Python (for Data Science), SQL (MySQL: CTEs, window functions, JOINS), Excel (advanced: VLOOKUP, Power Query, Pivot Tables, dashboards), Power BI (DAX, data modeling, interactive dashboards)

AI and Automation: Generative AI, advanced prompt engineering, custom AI tool development, GPT models, transformer architectures, AI ethics and evaluation, Zapier, Make.com, WhatsApp Business API

Research: Quantitative research design, questionnaire design, field data collection, statistical analysis, report writing

Software and Tools: Microsoft 365 (Word, Excel, PowerPoint, Teams, Outlook, Access), GitHub, HubSpot CRM, Google Workspace, Airtable, Notion

Soft Skills: Attention to detail, analytical thinking, independent work, clear written and verbal communication, fast learner, organised, collaborative

PROJECTS AND PORTFOLIO

CVISE | AI CV Screening and Hiring Risk Assessment System | *Self-Developed* 2024 to Present

- Built an AI-powered CV screening tool that produces structured hiring risk reports in under 60 seconds, reducing manual review time by over 80%
- Designed sequential chain-of-thought analysis across four competency dimensions with a structured scoring framework covering role fit, impact, behavioural signals, and consistency
- Implemented edge case handling, memory independence rules, and reset logic for professional reliability
- Tools: advanced prompt engineering, structured output design, Poe Bot Builder

AJs_PA | Personalised Business Planning Bot | *Client Project* 2024 to Present

- Designed and deployed a conversational AI bot that generates full business plans, investor proposals, and executive summaries tailored to the client's industry and location
- Built localisation logic, efficiency rules, and adaptive output formatting into the system design

SQL | Superstore Sales Data Cleaning and Analysis | *Portfolio Project* April 2026

- End-to-end cleaning and exploratory analysis of 9,994 transactions using CTEs, window functions (LAG, LEAD, RANK), JOINS, and CASE statements across 19 business questions
- Key finding: Q4 drives 65% of annual revenue; discounting above 40% produces negative profit margins

Power BI | Data Professional Survey Dashboard | *Portfolio Project* 2026

- Analysed survey responses from 630 data professionals globally to surface salary trends, gender pay patterns, and job satisfaction insights

Excel | Instagram Analytics Dashboard | *Portfolio Project* 2026

- Cleaned and analysed 29,999 posts and built an interactive Excel dashboard using Pivot Tables, slicers, and dynamic charts to answer five social media strategy questions

PROFESSIONAL EXPERIENCE

AI Solutions Developer and Prompt Engineer | *Self-Employed (Freelance)* Jan 2025 to Present

- Building custom AI-powered bots and automation workflows for clients using advanced prompt engineering techniques
- Developing a portfolio of AI solutions targeting HR screening, business planning, and workflow automation

National Service Personnel, Research Department | *Ghana COCOBOD (Cocoa Board)* Sep 2020 to Sep 2021

- Designed and administered structured questionnaires across 100+ cocoa farmers nationwide
- Collected, organised, and analysed large-scale research data to support evidence-based reporting for senior leadership
- Prepared detailed analytical reports and professional presentations reviewed at the executive level

Research Assistant and Office Manager | *Akwaaba Travels* Mar 2021 to Aug 2021

- Conducted daily cost-benefit research across 50+ global Regus office locations, identifying cost-saving opportunities for management
- Developed a comprehensive Microsoft 365 reference guide covering 10+ tools, adopted company-wide
- Supported HR data processes including recruitment tracking, onboarding administration, and candidate record management for 20+ applicants

Secretary | *Richard Akomeah Farm* Sep 2021 to Sep 2023

- Managed financial records, inventories, scheduling, and operational documentation across all farm departments
- Coordinated logistics, poultry vaccination schedules, and cross-functional communications independently

Research Intern and Field Assistant | *Bunso Cocoa College* Jun 2018 to Aug 2018

- Collected and documented field research data across cocoa plantation monitoring sites
- Authored structured field reports and supported the broader research team with data management tasks

EDUCATION

BSc Natural Resources Management | *Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana* 2016 to 2020

- Relevant coursework: Statistics and Research Methods, Business Management, Natural Resource Economics, Environmental Policy, Forest Resource Management
- Thesis: The Effect of Forking and Edge Effect on the Biomass of Senna Siamea in the FRNR Plantation at Kwamo (quantitative data collection, field analysis, and reporting)

West African Senior School Certificate (WASSCE) | *Adonten Senior High School, Aburi, Ghana* 2013 to 2016

- General Science: Biology, Chemistry, Physics, Elective Mathematics
- Selected as one of fewer than 10 students to represent the school at the National Science and Mathematics Quiz (2015)

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

- Data Science and Analytics, Thrive Africa EduTech | April 2026 | ID: TA/DS/25/524 | 12-week programme: Python for Data Science, SQL, Power BI, Excel, and Data Science fundamentals
- Generative AI and Advanced Prompt Engineering, Thrive Africa EduTech | April 2026 | ID: TA/GA/25/527 | 12-week programme: AI fundamentals, neural networks, transformer architectures, GPT models, fine-tuning, AI ethics, and deployment
- Data Science, ITExperience via Coursera | In Progress
